SOMETHING GREAT IS COMING

With our 7 years experience & expertise in the International School environment, Zenith is pleased to announce that we're in the midst of opening TWO new International Schools in the Klang Valley. Further updates will be announced officially to everyone very soon.

PROMOTION OF OUR PRINCIPAL

It gives us great pleasure to announce that in view of our expansion of new school ventures, Mr. Soon has been promoted to Director of Corporate Affairs. He will oversee the formation of our two new schools and future expansions.

Congratulations Mr. Soon.

PRIMARY & SECONDARY HEAD OF SCHOOLS

As Zenith is growing vastly, we need to ensure every aspect in our School is well managed. Thus, we're promoting TWO of our senior teachers to embark on new roles & responsibilities.

Ms. Judith has been promoted to Principal and will be the Head of Primary School.

Ms. Vivian has been promoted to Vice Principal and will be the Head of Secondary School.

EXAMINATIONS AT ZENITH

The UPSR exams are conducted by **Sekolah Rendah Zenith** and PT3 & SPM exams are conducted by **Sekolah Menengah Zenith**.

The optional Primary & Secondary Checkpoint and IGCSE (Oxford AQA) Exam Centre is **Zenith International School Klang Campus**.

Coffee Morning with our CEO

ENGLISH BOX & MATHS BOX

Enhancing Primary School Learning

The English Box gives children a confident start & mastery to learning English, and makes lessons a joy to learn. It fully covers the syllabus requirements. New language is presented through amusing stories that students will adore and practised with fantastic songs and activities, making the learning process a delight. Key language is continuously revised and recycled, helping to build children's confidence, and a focus on communicative activities ensures that children use the language they have learned in a fun, 'no-pressure' context.

The Maths Box series has been developed to support the teaching and learning of mathematical skills and concepts, covering Number, Algebra, Shape and Space, Measures, and Data. A variety of motivating activities, supported by colourful artwork and photographs, encourages pupils to engage in independent work and to further practise and consolidate the mathematical concepts taught in class.

What is STEM Education?

STEM is a curriculum based on the idea of educating students in four specific disciplines — **science, technology, engineering and mathematics** — in an interdisciplinary and applied approach. Rather than teach the four disciplines as separate and discrete subjects, STEM integrates them into a cohesive learning paradigm based on real-world.

At Zenith, our STEM modules are very much more interesting. Students are exposed to STEM through Virtual Reality (VR). Our students not only learn theoretically, but actually get to experience it first hand, in a virtual reality environment.

School Holiday Programmes

Digital Technologies

Specially designed for our Senior 5 leavers, it'll be held every December to February. A concise 3 months programme, offered absolutely **Free of Charge**. This practical course will cover the latest technology development, Web & App Development, as well as PC assembly & maintenance. This would be beneficial for tertiary & real-world application.

Detailed syllabus will be updated soon on our school website & informed to all parents.

COFFEE MORNING WITH OUR CEO

Meet our CEO, Mr. Ravi Shankar, during the next Coffee Morning which would be held during our upcoming Report Card Day, which is scheduled on 22nd June 2019 (Saturday) at 9.00 a.m.

You'll get first-hand updates on the current & future development of Zenith, as well as questions & answers session for parents. So mark your dates.
